Technology Used: ReactJS, jQuery, HTML, CSS and Node.js for Back End
http://herbdispenser.com/ (**Chinese Medicine Clinic or Dispensary Management – Based on angularjs + nodejs code).**

- https://www.keithharte.com/ (**Node JS and Angular JS technologies)**

Imanual
Tech Stack: Mean stack, 3d Model Viewer

Payshaq
Tech Stack: AWS lambda serverless

Inpayto   http://inpayto.csdevhub.com./admin/login
Description: In this project we are adding products, friends, create cases, etc. Basically, two type of users in this project bonus sender and bonus receiver. Bonus senders add products and share products with receiver based on role, then receiver will select products based on sender and create cases. Then sender will approve or decline cases. we can also give bonus to receiver by adding discount and equations in the product.
Technology Used: Node.js, MongoDB

Familiy Christian   https://familychristian.com/home
